Objective

Looking for a challenging position in the industry that involves designing solutions effectively and efficiently by applying creative ideas, sound computing principles and programming skills.

Work Experience

- **Oracle Corporation** (India Development Center)   Hyderabad, Telangana
    - **Designation:** Application Developer 2   *(July 2014 - till date)*
- **Bank Of America**   Hyderabad, Telangana
    - **Designation:** Senior Technology Associate   *(Jul. 2012 - March 2014)*

Courses

- **Machine Learning** online course offered by Coursera   *(Aug. 2015 - till date)*
  Course website: https://www.coursera.org/course/ml
- **Search Engine** online course offered by Udacity   *(Aug. 2012 - Oct. 2012)*
  Course website: www.udacity.com
- **Certificate In Network Management** course offered by Nettech India Pvt. Ltd   *(Dec 2010 - Jan 2011)*
  Course website: www.nettech.in

Education

- **VIT University**   Vellore, Tamil Nadu
  B.Tech. Computer Science And Engineering   *(Jul. 2008 - May 2012)*
    - Cumulative Grade Point Average (CGPA): 7.97 / 10.00
- **Higher Secondary Certificate**   75% (aggregate)
  Central Board of Secondary Education   *(Apr. 2006 - May 2007)*
- **Secondary School Certificate**   83.2% (aggregate)
  Central Board of Secondary Education   *(Apr. 2004 - May 2005)*

Skills

- **Domain Knowledge:** Identity Management and Access Governance
- **Programming Languages:** C, C++, Java, Java Swings, Shell Programming
- **Operating Systems:** Windows, Linux (Red Hat, SuSe, Fedora, Ubuntu), MacOS
- **Markup Languages:** HTML, CSS, XML
- **Tools:** Sailpoint IdentityIQ, Ant, Maven
- **Frameworks:** Servlet, JSP, Spring, Hibernate, log4j, JUnit
- **Others:** SQL (Oracle, MySQL), LaTeX

Projects

- **Oracle Fusion Goal Management**   (July 2014 - till date)
  Oracle - HCM Fusion   *(Team size: 6)*
    - Goal Management is an integrated feature which comes along with Oracle's Fusion Human Capital Management. As an integral part of Oracle Human Capital Management (HCM), Oracle Fusion Goal Management (Goal Management) provides organizations a best-in-class solution to track and manage organizational and individual goals and closely align them with the overall talent management process.Goal Management enables the setting and tracking of goals across the various levels of an organization, supporting an ongoing performance conversation throughout the year. Business leaders communicate high level initiatives, and managers and employees can collaborate to set goals that align to the organizations direction. Personal development plans are delivered to allow employees to track their personal growth and career development.
    - **Role:** Completely owned end to end design and development of goal plan and goal plan set feature. Took ownership of feature development and seamless integration into the product. Goal Plan set contains goal plan which in turn contains goals. We can better manage goal plans by adding them to sets and adding goals into the goal plans. This ensured that there are no loose goals to track. Currently working on enhancing this feature and fixing the bugs.
    - *Language Used:* Java
    - *Others:* Oracle RDBMS , ADF
    - *Platform:* Windows, Linux

- **Security Access Management** (Jan. 2014 - Mar. 2014)
  Bank Of America - Internal Product *(Team size: 4)*
    - Security Access Management is an internal in-house product developed at Bank of America to periodically review employee access. SAM provides periodic review to employee access.In order to control and audit the different accesses of Employees in organization we were required to build different modules on top of existing application.
    - **Role:** Worked on development of UUM Integration, designing new UI and bug-fixes.We developed user sign on capability shadowing SSO using UUM web service. On SAM side we were responsible to modify the code so that it can make use of the authentication service of UUM.
    - *Language Used:* Java
    - *Others:* Servlets, JSP, HTML, CSS, AS400
    - *Platform:* Windows, Linux

- **Review Access** (Jul. 2012 - Dec 2013)
  Bank Of America - Sailpoint IdentityIQ *(Team size: 8)*
    - Review Access (Sailpoint IdentityIQ) is used at Bank of America to periodically review employee access to high risk Sox Applications.It delivers a unified approach to compliance, password management and provisioning activities for applications running on-premises or from the cloud.It automates access certifications to improve audit performance and reduce the cost and burden of compliance.It empowers users to request and manage access on their own, with automatic policy enforcement.Fully automates user provisioning to streamline access changes based on user requests or detected user lifecycle events.Centralizes identity data and leverages one model for policy, risk, and roles across all IAM processes.
    - **Role:** Worked on development of review access application (IdentityIQ), bug-fixes, addition of new certification tools, user interface changes on business demands. Made contributions to design and development of new multithreaded framework which could be used for the development of data load, certification and reporting module.
    - **Product Knowledge:** Application Onboarding, Data loading, Custom Rules, Certifications, Reporting, Provisioning, Performance Optimization etc.
    - *Language Used:* Java
    - *Others:* Servlets, JSP, HTML, CSS, Hibernate, Spring, XML
    - *Platform:* Windows, Linux

Extracurricular

- Co-ordinator of Transport Committee in Riviera (Annual International Sports and Cultural Carnival) - 2010.
- Co-ordinator of event named "Treasure Hunt" in Riviera (Annual International Sports and Cultural Carnival) - 2009.
- Co-ordinator in Gravitas (Annual Techfest) - 2009.
- Represented West Zone in Table Tennis Tournament during school days.
